Unusual anti-Vietnam fiction with a Chicano protagonist. The main character, Eduardo O'Reilly Menendez, states that he was born "in the south of a state that used to be a part of Mexico." The first half of the work chronicles the destitution of his life as a migrant worker in the South, which eventually forces him to join the

FEMALE COLLEGE LIFE AT BUCKNELL DURING THE BEGINNING OF THE DEPRESSION

11. Hutchins, Ethel Irene. *"College Days" at Bucknell Univ., Lewisburg, Penna. The Life of a Co-Ed [manuscript title].* Lewisburg & New Jersey. 1929-1933. 365pp. 12mo. Original cloth, gilt with a metal clasp; closing clasp lacking. Light wear and soiling, text dampstained around the edges. Good.

Diary of Ethel Hutchins, kept during her college years at Bucknell University. Originally from the Englewood area of New Jersey, Ethel begins her diary with the freshman orientation on September 11, 1929, and keeps it through the end of her senior year on July 16, 1933. She also spent time at Rider College and Rutgers. Among her many observations, she records the freshman rush experience in the Greek system at Bucknell, receiving a bid from Zeta Gamma Tau "but rejected all." She maintains an active social life, with plenty of dates and parties at fraternities, noting in her diary which fraternity her dates belong to. On December 14, 1929, she writes (underlined), "Cut my hair!" and one imagines her in a flapper's bob for the remainder of college. She attends concerts and shows, and generally seems to have a grand time. In June 1930, she ends up going steady with one Andy Lobel, and they remain an item for the duration of her diary. During the summers they spend time at the shore, visit New York, and swim frequently. The diary, designed to record five years of information, contains five sections for each calendar day; thus each page records events for any given day over the course of five years. One can, for instance, see what each of her birthdays was like on the page for October 12. In 1930 she writes, "Am now a woman in other words, have reached my 18th birthday. Andy gave me a beautiful necklace & bracelet & in eve we went out with some gin. In all I had a very happy birthday." An interesting peek at the life of a co-ed at the end of the Jazz Age.

The unit was first organized as the 1st Regiment Kentucky Heavy Artillery by Col. Henry W. Barry, who has signed this form, and was the first group of African-American soldiers raised from the state. Scarce color printed map of rail lines with extensive timetables of the Mexican Central Railway, built during the Central American rail boom of the late 19th century. After the completion of the Transcontinental Railway in the United States, major railroad barons turned their attention to Mexico and Central America. The Mexican Central was funded by the principal investors of the Atchison, Topeka and Santa Fe Railroad in an endeavor to connect their lines in the western United States with Latin America, and was part of a

larger interest in constructing a Pan-American Railroad. This map shows the extent of the Mexican Central lines in 1906, the same year that the railroad was nationalized by the Mexican government, as well as its connections to American rail and steamer lines. At the head of the map are three photographic illustrations of tourist sites, as well as a short promotional text. The verso prints extensive timetables, additional tourist travel information, and short descriptions of towns and points of interest along the routes. This issue of the map advertises a new sleeper service from St. Louis to Mexico City via Eagle Pass and Torreon. We locate two copies of this issue, at the University of Arizona and the University of Texas.
